_____
_____

REASON FOR SCAN (DESIRED INFORMATION): _____
_____
_____

In order to provide you with the maximum possible information from your patient's PET/CT scan, it is critical that the clinical data on this form be available to the physician at the time of the study. It should be supplemented with copies of an appropriate history and physical or clinical notes, copies of recent diagnostic imaging reports and relevant laboratory data (e.g. tumor marker levels), as well as results of recent biopsy or surgical pathology. ***Patients cannot be scheduled without the information on this form being complete and signed by the referring physician (required by CMS (Medicare) and private insurance carriers.***
